

### 7031 L-240F(SILICONE LUBRICANT)

- FEATURES**
- Safety: unarmful to rubber, plastics and paint
  - Excellent lubrication
  - Excellent cold resistance and thermal resistance : -30°C ~200°C
  - Excellent chemical resistance: protecting equipment against salinity, acid, alkali or contaminants
- USES**
- Sewing machine, Conveyer, Springs, Vending machine, Watch, Injection molding, Aircraft maintenance, Vessel, Gear, Hoist, Plastic gear, Rubber equipment parts, Guide rail
- PACKAGE**
- Aerosol 420ml/can, 20cans/Box

### 8001 MEGA CHECK(DYE PENETRANT INSPECTION SYSTEMS)

- FEATURES**
- Very fine crack detected.
  - Easy to use.
  - Non-corrosive agent.
  - Can be sprayed at any direction(360°)
- USES**
- Cast parts—pin holes, folds due to hot water, cracks due to shrinkage.
  - Forged parts—cracks due to forging.
  - Welded sections—cracks, cavity, defective joints.
  - Metal fatigue—cracks due to grinding, cracks due to backing, cracks due to cutting tools.
- PACKAGE**
- Cleaner : Aerosol 450ml/can, 20cans/Box
  - Penetrant : Aerosol 450ml/can, 20cans/Box
  - Developer : Aerosol 450ml/can, 20cans/Box

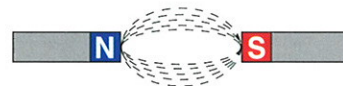

### 8004 MP-35(WHITE PAINT FOR N.D.T.)

- FEATURES**
- No offensive smell.
  - Bright color.
  - Easy to remove.
  - Fast drying.
- USES**
- Cast part, forged part, Tank, Boiler, Piston, Engine part, High-pressure valve, Welded section etc.
- PACKAGE**
- Aerosol 450ml/can, 20cans/Box

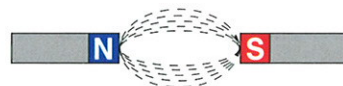

### 8005 SM-15(MAGNETIC PARTICLE SPRAY FOR N.D.T.)

- FEATURES**
- Can be detected with the naked eye.
  - Many inspections may be performed by small quantity so that it is effective.
- USES**
- Cast part, forged part, Tank, Boiler, Piston, Engine part, High-pressure valve, Welded section etc.
- PACKAGE**
- Aerosol 450ml/can, 20cans/Box

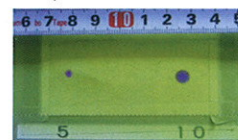

### 8006 FM-25(MAGNETIC PARTICLE SPRAY(FLUORESCENT) FOR N.D.T.)

- FEATURES**
- Fluorescent brightness enough to defect fine defects.
  - Many inspections may be performed by small quantity for effectiveness.
- USES**
- Cast parts—pin holes, folds due to hot water, cracks due to shrinkage.
  - Metal fatigue—cracks due to grinding, cracks due to baking, cracks due to cutting tools.
  - Forged parts—cracks due to forging.
  - Welded sections—cracks, cavity, defective joints.
  - Leakage—tanks, boilers, pipes and others.
- PACKAGE**
- Aerosol 450ml/can, 20cans/Box

### 8011 CLC-30(COLOR LEAK CHECK FOR NH3 LEAK TEST)

- FEATURES**
- Very fine defect may be detected.
  - Defects found easily with naked eyes.
  - Color is changed(Yellow→Blue)
  - No harmful for paint or metal.
- USES**
- Leakage of various pressure resistant piping may be detected.
  - Gas tank, LPG tank, LNG tank etc.
- PACKAGE**
- Aerosol 420ml/can, 20cans/Box
  - Liquid 18 l /PVC bottle
- In the case of ammonia concentration of 1%, zero pressure: 48hrs(5µm, 10µm).

### 8018-1 SMOKEY 911(SMOKE DETECTOR CHECK)

- USES**
- Fire alarm system Test Agent
  - SMOKEY 911 can detect a fire alarm system working well without real fire by NFPA72(National fire alarm code 72).
- PACKAGE**
- Aerosol 200g/can, 20cans/Box

8001-8018  
NON-DESTRUCTIVE TESTING(NDT)  
CHEMICALS
